

BLVCK DIAMOND CONSULTING FIRM

The Profit Leak Checklist

5 leaks to check across your locations — for owners with 3 to 20 locations, in any industry.

Walk each location with this list. If you can't answer one in a sentence, that's where to look closer.

1. The loss nobody explains.

Does product, inventory, or money go missing without a clear reason anyone can point to?

2. The numbers nobody trusts.

Do your records match reality? If your team doesn't believe the numbers, neither do you.

3. The cost that keeps creeping.

Is there a cost — supplies, labor, vendor pricing — that's moved up month after month while nobody flagged it?

4. Discounts nobody reviews.

Who's checking what's marked down or waived, and why?

5. Refunds nobody tracks.

Do you know how many, how often, and where?

Found something you can't explain? That's what the Diamond Diagnostic is for — I find it and put it in writing. Book a free consultation at blvckdiamondfirm.com.

And the guarantee is simple: if I don't find \$2,500 in leaks, waste, or missed revenue, you don't pay.
